INVEST FOR RETIREMENT

life

Has the stock market underperformed your expectations? Has watching your portfolio swing wildly into the red cause you sleepless nights? We strongly suggest adding Danista's class B shares into your investment strategy.

Danista is a unique investment vehicle that allows individuals and corporations to purchase class B non-voting shares to participate in the purchase of ABL transactions. The goal of Danista is to enable steady long term returns, high income growth and minimal capital losses through capital diversification and committee management. Read our corporate prospectus to learn more about:

- Share redemption
- Semi-Annual Date
- Income calculation
- Investment committee
- Capital losses

PORTFOLIO RETURNS

WWW.DANISTACAPITAL.COM

Danista Capital is an excellent strategic addition to your investment portfolio. As a Holder in Commisceo's eTACH program, Danista offers individuals access to asset-based lending returns with minimal volatility and principal loss along with excellent investment liquidity.

24 HOUR LIQUIDATION

After your investment semi-anniversary date, you have the ability to "call" your class B shares for redemption should maturities and idle funds meet daily demand.

INVESTMENT COMMITTEE

The investors who purchase Danista's class B shares are appointed to our investment committee whose responsibility is to ensure capital preservation and growth.

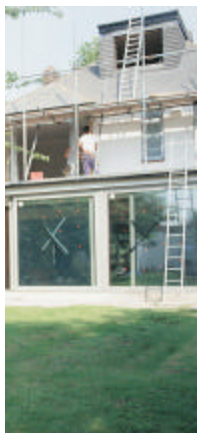

HIGH MARGIN INVESTMENTS

Danista's capital is put to work purchasing financial instruments that require little overhead and management.

INCREASE RETURNS

The key to early retirement is to increase portfolio returns. Danista's investment vehicle has historically provided returns in excess of equities by 3 to 5%.

LESS VOLATILITY

Equities are known to have significant volatility. If you are a risk averse investor and seek equity returns, consider Danista's class B shares.

PUTTING CAPITAL TO WORK

Once you purchase Danista's class B shares, your capital will be put to work purchasing ABL financial instruments.

DIVERSIFY INCOME

Through transaction diversification, Danista is able to achieve similar "fund" management techniques to preserve capital and maximize returns and shareholder income.

INSURE YOUR NEST EGG

When purchasing Danista's class B shares, you can be assured the investment committee has a vested interest to minimize losses. The key to maximizing long term returns is to keep capital losses at a minimum. With Commisceo's TACH Score, D&B ratings and Experian, the committee will use available business credit tools to achieve low historic eTACH holder losses.
